Prior to passage by the Senate, HB 1033 was amended to include a 2011–12 legislative management study of higher education. See the Week 13 issue of *Legislative Review* for a list of possible study topics.

## Department of Commerce Budget Killed, Then Reinstated Centers of Excellence Funding Removed

**HB 1018**, the Department of Commerce budget bill, was defeated in the House April 13 on a vote of 22-69.

Later in the day, the agency’s budget was amended into **SB 2057**, originally the Centers of Excellence bill. In its current form, both the process for establishing new Centers of Excellence and all funding to do so have been removed from SB 2057. As amended, the bill was passed by the House April 14 on a vote of 73-19.

SB 2057 now includes:

- \$2 million for Workforce Enhancement Grants, which will be available to the community colleges with responsibility for workforce training

- \$500,000 in general fund appropriations and \$1.5 million in borrowing authority for a workforce training building project at WSC
- \$4,335,000 in Great Plains Applied Energy Research Center carryover funds to be provided to BSC as a grant for completion of the fourth floor of the National Energy Center of Excellence
- \$900,000 for Operation Intern

After Senate action on SB 2057, the bill is likely to go to a conference committee to be reconciled by members of the House and Senate.
